ENERGY SAVING, RELIABLE, LONG LIFE

- **ENERGY SAVING** - the thick insulation of 33 mm HFO polyurethane foam ensures extremely low heat losses and saves money;
- **LONG LIFE** - water tank coated with a wear-proof zirconium enamel and two magnesium protectors for an optimal anti-corrosion protection of the whole volume;
- **RELIABLE** - with a reliable "6-level protection"
- External thermostat - for setting the water heating temperature;
- Temperature indicator - to read the water heating temperature;
- Combined safety valve - jointly acting as balance and non-reverse and differential valve;
- Specific oval flange - of a special construction to guarantee your safety;
- Electrical tube heater - designed and manufactured by ELDOMINVEST, by a last generation technology;
- Illuminated switch;
- Optionally, it is possible to fit an anode tester to control the corrosion protection state.

Installation:	Vertical
Capacity range:	50
Water tank:	Enameled
Nominal power (kW):	2
Energy efficiency class:	C
Control:	mechanical control
Type of electric heating element:	Immersion heating element
Dimensions ØxH [mm]:	387 x 760
Nominal pressure [MPa]:	0.7
IP protection:	IP24
Annual electricity consumption [kWh/annum]:	1401
Load profile:	M
Colors:	White
